#### Additional Information

- (1) System responsible for deposits protection- your deposit is covered by a contractually recognized system responsible for deposits protection. In case of insolvency of the credit institution, your deposits will be repaid by the system responsible for deposits protection up to €100 000.
- (2) General Protection Limit - If a deposit is unavailable because the credit institution cannot meet its financial obligations, depositors are repaid by a system responsible for deposits protection. The repayment covers a maximum amount of €100.000 per credit institution. This means that all deposits at the same credit institution are added together for the purpose of determining the coverage level. If, for example, the depositor holds a savings account with a balance of €90.000 and a current account with a balance of €20.000, only €100.000 will be repaid.
- (3) Protection limit for omnibus accounts - In the case of omnibus accounts, the limit of €100.000 applies to each depositor. However, deposits in an account to which two or more persons have access as members of a business partnership, association or grouping of a similar nature, without legal personality, are aggregated and treated as if made by a single depositor for the purposes of calculating the €100.000 limit. In certain cases, such as, a) Deposits arising from real estate transactions related to private residential urban buildings; b) Deposits with social objectives, determined by specific legislation; and c) Deposits resulting from the payment of insurance benefits or compensation for damages resulting from the commission of a crime or wrongful conviction; and for a period of one year from the date on which the amount has been credited to the respective account, pursuant to article 166(2) of the General Regime of Credit Institutions and Financial Companies approved by Decree Law no. No. 298/92, of December 31, deposits are protected above €100.000. More information can be found at [www.fgd.pt](http://www.fgd.pt).
